

Beneficiar file: Children's Palace "House Cantacuzino-Paşcanu" Iași

Description

Children's Palace activity implies a specific instructive-educational approach, through which the children increase their knowledge from different domains, facilitating the development and exercise of skills according to the vocation and option of the children.

The Palace is an institution of education which organises non-formal training activities divided in 3 categories: laboratories, workshops and clubs.

The activities can be organised together with educational institutions, ONGs and other profile institutions.

Mission

Children's Palace mission is to offer a favorable environment for performance by organizing activities of great extent, bringing the young on the city's scenes, in art galleries and in workshops.

Activity profile

Education and other theatrical activities (creation, artistic interpretation and literature)

The Palace hosts its activity in around 100 clubs divided in 6 domains:

1. visual arts;
